

Weston Development Inc. COVID-19 Message

Weston Development Group, Inc. offers over 60 years combined experience in land development and home building. Our focus is on working with our host communities to create developments that are an asset to the local community, financially successful and most importantly – provide excellent value and a wonderful environment for our home buyers. We work to provide a positive customer experience and strive to help you create a home you will love.

We remain open for you to visit our communities and sales centers. Given concerns associated with COVID-19, we want you to know that we have instituted the following safety practices to better protect the health of our homebuyers and employees:

- All of our sales centers are currently no handshake zones, but you will be greeted with a warm hello and friendly smile.
- **Our sales centers remain open daily but to manage group size and practice appropriate social distancing, all sales meetings will be by “appointment only”. Please call ahead to schedule your appointment.**
- Our sales areas are being cleaned and sanitized routinely. Our Sales staff are also conducting supplemental cleanings throughout the day including between each office appointment.
- Any employee exhibiting cold or flu symptoms or who has a family member that maybe feeling ill has been instructed to stay home.

Please visit our website to view available communities, floor plans and home features. Then call a member of our sales staff and they can answer your questions and walk you through the rest of the homebuying process over the phone and computer.

Thank you for your patience as we all navigate this difficult time. Despite the challenges, we will do our best to adjust as necessary and will continue to provide every consumer with the excellent customer experience for which we are known.
